

Health Workforce New Zealand (HWNZ) Postgraduate Nursing Funding Prioritisation Framework for 2020

To establish transparency and equity in the HWNZ funding programme, the following priority funding framework has been developed.

- All applications will be assessed on an individual basis and on past funding support received.
- Funding is limited. If a high number of applications are received the priority status levels below may not be funded entirely.
- Depending on the demand for funding, those applying for two papers to commence a postgraduate programme may only be approved for one paper.
